

The Weekly Ledger.

THURSDAY, JULY 18.

AUDRAIN COURTS.

Circuit Court—3d Monday in January, 1st Monday in June, 3d Monday in September.

County Court—1st Monday in February, 1st Monday in May, 1st Monday in August, 1st Monday in November.

Probate Court—2d Monday in January, 2d Monday in March, 2d Monday in May, 2d Monday in September.

The Mexico Fair will be a success. SEDALIA, Missouri, is after the fair silver convention. Jefferson City is after holding the State capital.

Every citizen in Audrain county is interested in the success of the Fair this year. If we have a good Fair this season Audrain will continue to have the very best Fairs in the country.

There is quite a strain on some of Missouri's politicians at this time. They endeavor to endorse everything and everything to get office. They don't care anything about the platform.

There are thousands of Democrats in Missouri who do not believe in the policy of "16 to 1 free and unlimited coinage without an international agreement." They are bimetallists, but do not believe that the "United States alone can carry on the free and unlimited coinage of silver at a ratio of 16 to 1.

The impression that some have that the Democratic editors of Missouri are invited to meet at Sedalia to organize on July 23 is a mistake. Only such Democratic editors as are invited as are in favor of "free and unlimited coinage of silver at 16 to 1 without an international agreement." W. J. Bryan and Hon. R. P. Bland will be present and "assist in organizing."

COUNTY TREASURER F. V. Gentry is satisfied that it pays to advertise. Last week he published in the Mexico LEADER, exclusively, names of parties to whom coins were due. The ink would not dry before he began receiving callers asking for dues. He has received letters and calls from nearly every one to whom coins were due. It pays to advertise if you have anything to sell which it will pay the purchaser to buy.

SENATOR VEST has always been classed as a "free silver" man, but he has never yet declared in favor of free and unlimited coinage of silver at a ratio of 16 to 1—Huntville Herald.

Senator Vest said in an article contributed by him to the North American Review that "one had just as well talk of stopping a crevasse in a levee of the Mississippi River by adding a greater volume of water as attempt to restore a healthy financial condition by free and unlimited coinage of silver."

DEBS AND COMPANY, the leaders of the riots that happened in St. Louis, have been taught a lesson which they will probably remember. The authorities have cut down their sentences so that Debs will be out in six months and his associates will go free in three months. Meanwhile, they will be pleased to know that neither by robbing and destruction of property, nor by robbery of toll of its wages or of capital of its due reward, nor by foisting upon the people a dishonest money of which they themselves would be the inevitable victims, has labor entered upon a new era of selfishness and prosperity. Confidence, peace, respect for law and firm adhesion to sound principles of government and of currency have rekindled the forges, set the hammers swinging and the belting humming. When Debs and his companions come forth again they will have no difficulty getting work, provided, however, they have any desire to work otherwise than with idle words, for which, unlike every kind of labor, there is increased demand nor increased wages.

KANSAS WOMEN TO GET EVEN.

Preparing for Revenge Because Men Will Not Let Them Vote.

TOPEKA, Kan., July 12.—If the women of Kansas follow the advice of the Topeka Equal Suffrage Association the men will have a hard row to hoe. At its annual picnic this afternoon the association discussed the defeat of the suffrage amendment last fall and unanimously adopted the following resolutions:

Resolved, That it is the duty of every self-respecting woman in the State of Kansas to fold her hands and refuse to help any religion, party, sect, or political association until the men of the state shall strike the adjective "male" from the suffrage clause of the constitution and thereby declare that women's opinion shall be respected and have a hand in the making of laws, as are all men's opinions outside the state penitentiary, the idiot and the lunatic asylums.

Miss Susan R. Anthony, on her recent visit here advised this action. The women say they will send the resolutions to every local society in Kansas and ask them to fall in line.

DON'T ASK FOR GARDEN SEEDS.

Farmer Morton's Bureau Will Only Handle Rare or Profitable Seeds.

WASHINGTON, July 11.—Six bids were put in to-day for seeds to be supplied the Department of Agriculture for the ensuing fiscal year, and all of the bids were rejected, for the reason that they did not conform to the advertisement. The Secretary advertised for seeds that were rare and uncommon, and he was not prepared to make any more of them. He was not prepared to make any more of them. He was not prepared to make any more of them.

In the Daily and Weekly LEADER will be found the new advertisement of Guthrie & Gentry. These gentlemen are now prepared to furnish insurance policies on favorable terms, before you take your summer outing call on them and insure. Guthrie & Gentry represent the very best insurance companies either for fire, cyclone, life or accident, in existence. They are reliable in every sense of the word.

Dr. McNally, editor of the St. Louis Christian Advocate, is dead.

HE WILL LEAVE STURGEON.

W. H. Wimsott Will Go on the Road for a Chicago Firm—He Makes a Statement.

From the Sturgeon Leader.

A Leader reporter called at the residence of W. H. Wimsott, yesterday, and found that gentleman to be a very sick man. He has been ill for the past two weeks—the illness being brought on probably from worrying and nervousness.

He expects to leave Sturgeon next week if possible. He has been offered a position by a Chicago firm and will probably travel in Arkansas and Texas.

His wife will go to Chillicothe next week and will spend a couple of months at some springs; she is in poor health and will take the advice of her physician and try and recuperate.

The Leader recognizes that Mr. Wimsott has made mistakes, but it does not believe in kicking a man because he is down.

True, he occupied positions that under the circumstances he had no right to hold, but he did not like most men would have done.

As he said to a Leader reporter: "I always thought there would come a day when I could get enough money to pay my mortgage and relieve my mind of the burden it carried." We remember one year in particular when Mr. Wimsott worked day and night to make a few dollars.

During banking hours he attended to his banking business and as soon as his duties were done he went to the book and stationery store and labored until late at night and then he lost money. The store proved a losing venture.

Mr. Wimsott is a clever, accommodating gentleman but he was not the man for a bank cashier. He did not possess some of those qualities which are absolutely requisite in order to make a good financier.

But withal let's draw the curtain over the past in this instance. The Leader trusts that Mr. Wimsott has learned a lesson that will help guide him in future days.

TO RIGHT A WRONG.

To the Editor of the Leader.

STURGEON, Mo., July 8.—Through your columns I desire to right a wrong and an injustice done an innocent woman in connection with my recent troubles with the Sturgeon Exchange Bank. Her name has been freely and unjustly used and all kinds of rumors have been spread. I desire to exonerate her and all others from any blame, and feel it my duty to publicly say that all this talk connecting her name in any way is utterly false. Her husband has a written sworn statement from me that his wife is innocent of any wrong and he is satisfied. But rumor has it every where. I therefore think it just to both him and her for the public to know the truth.

W. H. WIMSOTT.

De Witt's Colic and Cholera Cure never disappoints, never fails to give immediate relief. It cures just as sure as you take it. Woodbridge & Purdy.

A Liberal Education.

The late Prof. Huxley held this opinion as to what constitutes a liberal education:

"The man has a liberal education who has been so trained in youth that his body is the ready servant of his will, and does with ease and pleasure all the work that, as a mechanism, it is capable of; whose intellect is a clear, cold, logical instrument, capable of grasping the nature of things, and of reasoning from the known to the unknown; whose strength and smooth working order, ready, like the steam engine, to be turned to any kind of work, and spin the gossamer as well as forge the anvil of the mind; whose mind is stored with a knowledge of the great and fundamental truths of nature and of the laws of her operations; one who, no stunted ascetic, is full of life and fire, but whose passions are trained to come to halt by a vigorous will, the servant of a tender conscience; who has learned to love all beauty, whether of nature or of art, to hate all violence, and to respect others as himself. Such a one, and no other, has had a liberal education."

The Very Best Coal Cheap.

I will sell coal in any quantity on the bank or delivered. My coal is as good as any mined anywhere. I defy competition in prices. Give me a chance before you buy. My coal bank is 12 miles southeast of Mexico. Address W. W. McCowan, Benton City, Mo. 15 cents.

Lines for Boone County.

COLUMBIA, Mo., July 12.—The subject of an electric railway through Boone county is now being agitated, and from present indications it looks as if the movement will be successful. The proposed line is to extend from Cedar City via Ashland to Columbia, and a committee appointed by W. J. Martin, who is conducting the enterprise, is now at work securing money of way. Many of the wealthiest citizens of the county have become interested in the matter and the enterprise is being pushed with much enthusiasm.

A franchise has already been granted for a street railway through Columbia.

The most pleasant little pills for regulating the bowels are De Witt's Little Early Risers. Cure sick headache and constipation. Small pill. Small dose. Woodbridge & Purdy.

County papers are giving publicity to a good many different ways of circumventing the chinch bug. With all the rain the little pests seem to hang on to life and pursue their destructive work. One of the latest ways is to saturate blinder twine with carbolic acid and stretch it on the ground. It is said no bug will cross it.

County papers are giving publicity to a good many different ways of circumventing the chinch bug. With all the rain the little pests seem to hang on to life and pursue their destructive work. One of the latest ways is to saturate blinder twine with carbolic acid and stretch it on the ground. It is said no bug will cross it.

Death of the Venerable Preacher and Journalist.

St. Louis, July 12.—Dr. David R. McNally died at his home, 6815 Virginia avenue, at 10:30 last night. He was eighty-five years old.

In the death of Rev. Dr. McNally there has passed away one of St. Louis' best known citizens, the oldest preacher in the Southern Methodist church, and a man who has gained distinction as a preacher, an educator, a journalist and an author.

W. W. Johnson was in Mexico this week and said he has harvested a splendid crop. He cut off acres of oats a day with a Plano fly wheel machine. He says he never saw corn as good in Audrain county as it is to-day.

Big Chews Battle Ax Plug for 10-cents

A FORTUNE IN FOOD.

It is Said That a Cheap Restaurant Keeper Amassed \$800,000.

From the bill of fare printed below Patrick Dolan has amassed a fortune of \$800,000 in New York City. One-third of this amount is invested in real estate. The balance is in cash, which could be gotten together within six hours. Fifty-four thousand dollars is drawing interest in eighteen different savings banks. He has \$5,000 in cash, which is the limit accepted from a single depositor. Yet when he started a little coffee and cake saloon in a basement, says an exchange, thirty years ago, he only had \$20. Here is the menu from which this fortune was made:

Coffee and cakes 10
Corned beef 10
Boiled ham 10
Pork and beans 10
Pickled tongue 10
Bread and milk 10
Two boiled eggs 10
Dry toast 10
Milk toast 10
Oyster pie 10
Oyster stew 10
Pies 10
Tea 10
Crullers 10

About 1880 Dolan moved out of the basement into the little store overhead. Here he had room for only six tables. He made money from the day he started in business. Dolan made friends easily, but was nevertheless independent. He has never used the credit system in his lunch room, spot cash on delivery having always been his rule. Dolan has often had to pay as high as 75 cents a dozen for eggs, but he never charged his patrons more than five cents a dozen.

"It's enough," he says. "As a general thing, I can buy eggs at from 15 to 25 cents a dozen. I make a good profit on them. Why should I bleed my customers just because I get the tough end of the stick once in a while?"

For the Baptist Young People's union, Baltimore, Maryland, July 18 to 21, 1893, the Chicago & Alton and the Wahash railroads will sell tickets to Baltimore and return at \$2.35. Tickets will be sold July 18 and 19, good for return passage until August 3, 1893, dkw to 15.

E. S. WILSON.

Missouri raises 29,632 bushels of beans.

Missouri has 56,421 acres planted in flax.

Missouri produces 9,243,823 pounds of tobacco.

In 1890 Missouri returned one acre of hops yielding 30 bushels.

Missouri raised 30,118,821 bushels of wheat on 1,947,750 acres of land.

Missouri raised in the census year 190,999,618 bushels of Indian corn.

Missouri raised in 1900 49,817 bushels of flax seed and 1,158 pounds of fiber.

Missouri grew in the census year thirty-nine acres of hemp from seventy-nine acres.

Missouri in 1890 had 1,504 acres planted in barley, which produced 34,863 bushels.

The farms of Missouri produced in the census year an estimated product of \$109,751,021.

Missouri in 1890 had 1,504 acres planted in oats, which produced 28,149 bushels.

The buckwheat in Missouri in the census year amounted to 2,302 acres and 25,410 bushels.

Missouri returned at the last census 2,618 acres of broom corn, yielding 25,410 bushels.

Missouri produced, according to the last census year, 309,307 bushels of rye from 84,282 acres.

Missouri has 14,000 working oxen, or 7,000 teams, causing every year 100 times that number of profane expressions from the drivers.

Missouri ranks first in mules, having in the last census year 257,716; the next being Texas, with 227,432, and the third Tennessee, with 303,393.

Hot weather proves depressing to those whose blood is poor. Such people should enrich their blood with Hood's Sarsaparilla.

International Agreement.

From the New York World.

The English Bimetallist League is giving evidences of its activity, and there is good reason to believe that it will be a factor in determining the result of the forthcoming elections. It has the great advantage of presenting to the English people a definite proposition against which there is no possibility of opposition.

English bimetallism does not commit itself to anything more than an enlarged use of silver by means of international agreement. Indeed, it does not even go so far as that. It merely favors the calling of an international conference to determine what steps, if any, can be taken to bring about such a result.

The only valid reason for opposing so modest a programme would be a conviction that international bimetallism would be a bad thing. But no one goes so far as that. The extreme of gold metallism and the extreme of silver in favor of the unlimited free coinage of silver in recognizing that there is good reason to believe that it will be a benefit to the commerce of the world. Their only objection to an international agreement is that they do not believe it can be brought about.

The way to settle that question is to try it. Nations, like individuals, do not know what they can do until they try. And so promising an experiment as that of an international conference is entitled to a fair and final trial.

The County Democratic Central Committee met in Mexico on Saturday, July 13, and passed resolutions in favor of the free and unlimited coinage of silver 16 to 1 without an international agreement. John J. Steele was the chairman. A. E. Sims, to the readers of the LEADER and will have the very best cutters and fitters there is in the country.

Capt. Dix was up from Martinsburg this week and says that grain has already been coming into town and is being shipped. Capt. Dix is under the impression that we are going to have most prosperous times this fall. All of the farmers here are splendid crops and the country around Martinsburg is the best there is anywhere.

A Valuable Find.

After years of study and labor, there has at last been discovered a sure and never-failing remedy. It has been tested on patients and has been found of ever being cured; the results have been, in every case, wonderful. Groat's Remedy is unequalled as a positive remedy in all cases of Chronic and Acute Inflammatory Rheumatism, Gout, Lumbago, Sciatica, Neuralgia, especially Ovarian Neuralgia, Dysmenorrhea and all kindred affections. It is also a valuable blood purifier, being especially useful in Eczema, Psoriasis, Scrofula, all glandular enlargements and diseases of the liver and kidneys. It is absolutely free from all narcotics. Severe attacks are relieved in from one to three days and a permanent cure effected in from five to eighteen days. For sale by E. S. Frost, Mexico, Mo.

Senator Vest Sails To-day.

New York, July 9.—Senator George G. Vest of Missouri is at the Hoffman House. He will sail on the Westernland for Antwerp tomorrow morning and will remain abroad for several months.

Rev. D. R. McNALLY.

Death of the Venerable Preacher and Journalist.

St. Louis, July 12.—Dr. David R. McNally died at his home, 6815 Virginia avenue, at 10:30 last night. He was eighty-five years old.

Note change in Guthrie & Gentry's advertisement.

Elder D. M. Grandfield has moved to Troy, Mo., to live.

Born, to Wallace Brown and wife, of Waco, Texas, a son.

Deacon Dunbar will leave in a few days on a visit to Pennsylvania.

Prof. B. W. Torreyson is in Sedalia hard at work in the Teachers' Institute.

Commodore Winn has presented the LEADER with a curiosity in the way of a double apple.

W. H. French and wife, James Pasqueth and Joseph Coons will leave shortly for Staunton, Va., on a visit.

In London there is a street called for one benevolent institution or another on almost every Saturday in the year.

Roy Hutchison, colored, charged with the rape of little Annie Scott, colored, has been bound over to the grand jury.

E. W. Corner has presented the LEADER with some fine Early Rose potatoes, some of his own growing. The writer never saw any better.

It is likely that a meadowland road, 100 feet wide, running along the lake and from Chicago to Milwaukee, will be begun.

It is said that the fossilized remains of an Irish giant, above twelve feet in height, is lying unclaimed at a London railway station.

Missouri's apple crop this year will be the largest the state has ever produced, according to the judgment of the state horticultural expert.

Arrangements are being completed to establish a bank at Rush Hill, Mo. Rush Hill is a prosperous little business town, and a bank would do well there.

Mr. J. D. Morris has one of the best gardens in Mexico. Mr. Gant, his partner, "says" that Mr. Morris "says" that he got 132 potatoes out of one hill this morning—more or less. Mr. Morris' stories are nearly as good as his garden.

Osculation Is Dangerous.

From the London Standard.

A few days since a prominent citizen, on his way on the cars from Tenth and Broadway, was put in an embarrassed predicament. A colored woman got on the car with a baby about two years old. The man saw the baby looking wickedly at him, and some bananas he was carrying. He intended to give the child one for the fun of it, but thought he would toss it to a white child. The child picked it up and gave him to give her one. He pretended not to hear her. She then said:

"Good man, please give me one."

He still pretended to take no notice of her. At last, goaded to desperation, she pulled his coat and said, loud enough for all the car to overhear her words:

"Say, mister, if you will just give me one of those bananas I'll give you a kiss."

That was too much for the citizen to stand. The whole car roared with laughter, while he meekly pulled a banana and gave it to her, but declined the child's offer.

An Airship.

A. J. Cooley, an inventor, of Hornellsville, N. Y., says he has successfully completed an airship which will carry one person. It is about ten feet in length, with two pairs of wings, each pair having a spread of twelve feet. Placed between the two pairs of wings is a large motor, and at one end of which the pilot-house, for the occupant will be built. The front pair of wings is stationary. Mr. Cooley's idea is that his machine will sail like a hawk or an albatross that has been stretched, it will skim along on a certain plane, and may be either raised, lowered or turned entirely round by the movement of the rear pair of wind beaters. A public demonstration of the invention will soon be given, after which it will be placed on exhibition to raise money enough to build a larger machine.

The Nine Longest Words.

THE KING OF LIVER MEDICINES.

Reader, did you ever take SIMMONS' LIVER REGULATOR? The "KING OF LIVER MEDICINES"? Every body needs take a liver remedy. It is a sluggish or diseased liver that impairs digestion and causes constipation, when the waste that should be carried off remains in the body and poisons the whole system. That dull, heavy feeling is due to a torpid liver. Biliousness, Headache, Malaria and Indigestion are all liver diseases. Keep the liver active by an occasional dose of Simmons' Liver Regulator and you'll get rid of these troubles, and give tone to the whole system. For a laxative Simmons' Liver Regulator is BETTER THAN PILLS. It does not gripe, nor weaken, but greatly refreshes and strengthens.

Every package has the Red Z Stamp on the wrapper. J. H. Feltin & Co., Philadelphia.

STUB ENDS OF THOUGHT.

A pretty woman is never quite without hope.

When a woman is firm in her convictions it isn't wise to call her stubborn.

When a man has more money than he knows what to do with, he very soon learns.

Some people's fine clothes are no more than the pretty label on the empty can.

Many a corn may lurk behind a polished shoe.

A woman's tact will buy more than a man's dollar.

The eye can lie more in a minute than a tongue can correct in a week.

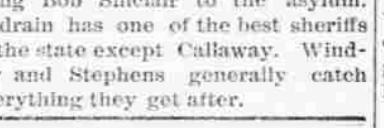

It takes less courage to marry a woman than it does to be a husband to her afterwards.

Not every woman is glad she is a wife, albeit the world doesn't know it.

The Callaway Gazette says Sheriff J. N. Stephens, of Audrain, was in the City Monday night. He came over to bring Bob Sinclair to the asylum. Audrain has one of the best sheriffs in the state except Callaway. Wind-sor and Stephens generally catch everything they get after.

You're Well Shod
